What If Learning Was a Two-Way Street?

We're a team of students at the University of Hyderabad exploring how students share skills, learn from one another, and find peers with similar interests.

This short survey aims to understand what students can teach, what they would like to learn, and the challenges they face when seeking help from peers. Your responses will help us understand student needs and shape our SkillSwap project, a platform designed to connect learners and peer tutors through a time-credit system rather than money.

The survey takes approximately 2 minutes to complete. Participation is voluntary, and your honest feedback, including concerns or suggestions, is valuable to us.

* Indicates required question

1. Student ID: *

2. Branch/ Program of Studies:

3. Have you ever felt that online courses and Youtube baba playlists are way too complicated to upskill yourself in today's world? *

Mark only one oval.

- Yes
- No
